Description of changes (attach additional sheets and exhibits if necessary):

The Village School needs to install a simple fence between the playground and the driveway, for safety reasons, to keep children from running into the driveway. From the southwest corner of the building, the fence would run 72 feet from the bottom of the handicap ramp, southwest along the inside of the driveway by the playground. The fence would probably not be very visible from the Town Dump Road.

The fence would be 32" high, with posts every 7 feet. A 1" x 6" top rail would run across the top. ~~We prefer to~~ paint it white for visibility to the children. *A bottom rail 1" x 6" 10" off ground 4" x 4" posts RR*

The purpose of the fence is to create a barrier to stop children from running into the driveway from the playground. It is very hard for drivers to see children who run into the driveway.

FENCE WILL BE REMOVED WHEN VILLAGE SCHOOL VACATES PREMISES RR

Attached is a drawing of the new fence, with dimensions of lumber, length of fence, and distance between posts.
